Privacy Collection Notice

The collection of personal information by the University of Melbourne (**University**) is governed by the *Privacy and Data Protection Act 2014* (Vic) and *Health Records Act 2000* (Vic) (together, **Privacy Laws**). The University is also considered to be a data controller for the purposes of the EU General Data Protection Regulation 2016/679 (**GDPR**) in relation to the collection of personal information from individuals located in the European Union (**EU**), while conducting certain activities. The University is committed to protecting your privacy and processing your personal information fairly and lawfully in compliance with the Privacy Laws and the GDPR, as applicable.

The information on this form is being collected by the Faculty of Engineering and Information Technology for the purposes of administering this scholarship, including selection, awarding and reporting requirements. The information you provide will be used by members of the scholarship selection committee and may be shared with the donors of the award. We will not disclose your personal information to anybody else unless you have given consent, or we are authorised or required to do so by law.

The University stores personal information in both electronic and paper based form and does not segregate or treat personal information differently based on your geographical location. The University takes all reasonable steps to ensure that the information we hold is accurate and complete, and that we implement and maintain appropriate technical and organisational security measures to protect personal information transmitted, stored or otherwise processed, from accidental or unlawful destruction, misuse, loss, alteration, unauthorised access or disclosure.

We will retain your personal information only for as long as required for the purpose it was collected and in accordance with our legislative obligations. This information is then securely destroyed in accordance with the [University's retention and disposal authority](#).

You may request access to, or correction of, information we hold about you, or exercise rights of access, rectification, erasure and other rights under the GDPR, at any time. Please refer to our [Privacy webpage](#) for information on how to contact us about privacy, how to lodge a complaint and for the contact details of the University's Privacy and Data Protection Officer.

About the Awards

* indicates a required field

Stephen Ho Innovation Awards registration

Form Preview

The Stephen Ho Innovation Awards support students undertaking the BioDesign Innovation course by providing awards to the highest-achieving student teams as they collaborate to create medical devices.

Teams must submit this online intention to be considered. They will then be allocated a date and time to present a pitch and participate in a Q&A session before a judging panel, which includes Mr Stephen Ho and representatives from the Faculty of Engineering and Information Technology and the Melbourne Business School.

One or more teams will be awarded a funding amount to be determined by the selection panel.

Funds awarded must be expended by the team for the purpose of development and commercialisation of their device. The team must track all expenditure and provide regular updates to course coordinators.
